- Videos

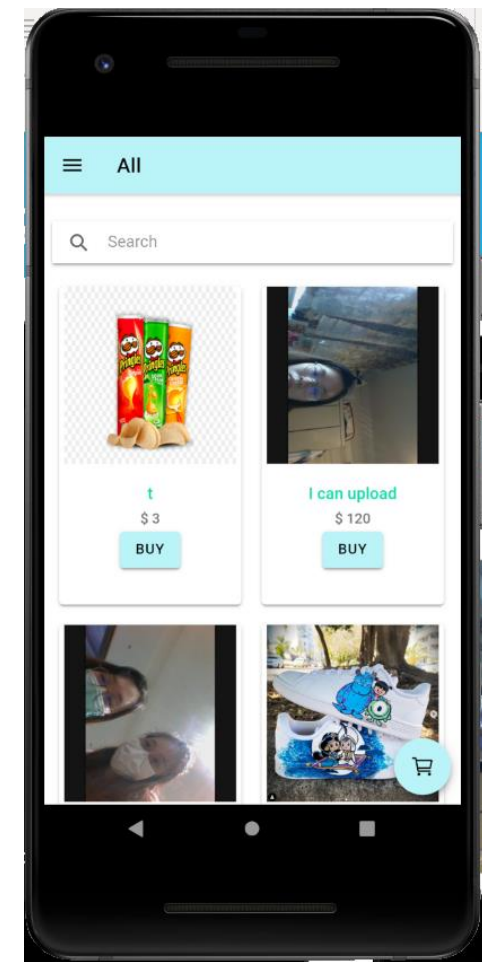

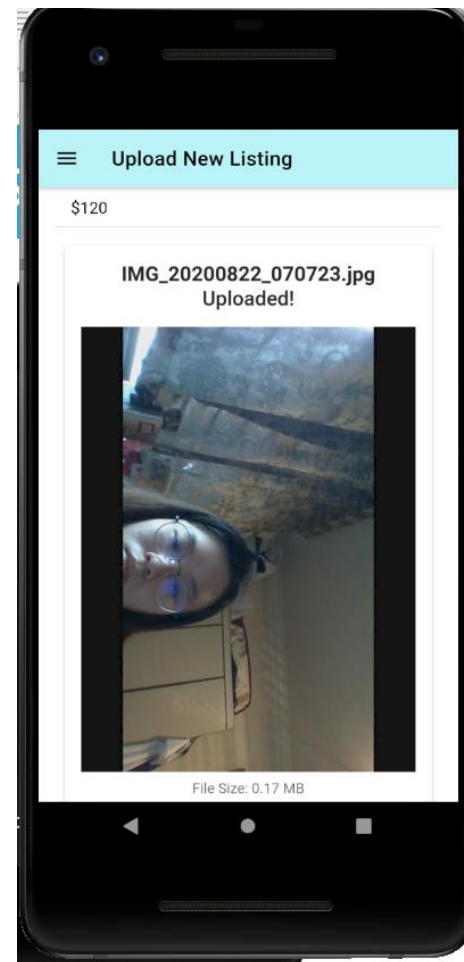

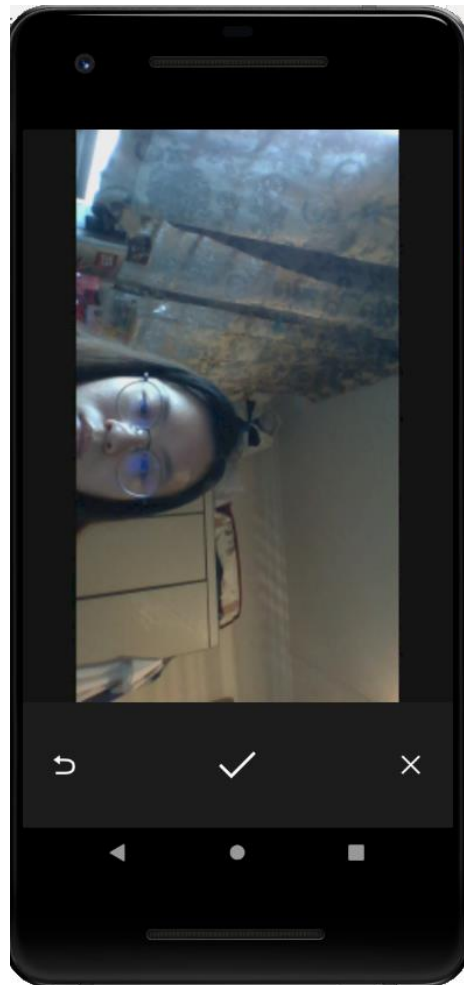

UNIQUENESS OF SOLUTION

Social Media Sharing

UNIQUENESS OF SOLUTION

Upload Image and Camera

FUTURE ENHANCEMENTS

- Adding Animation during add to cart
 - Enhance user experience
- Hiding UI component
 - This is to ensure that only the user who posted the listing is able to update/delete.
- Push Notification
 - To notify user that they have items in the cart
 - notify user when the seller has shipped out their item.

REFLECTION

- Experience:
 - Neutral
- What new things did you discover/learn through this assignment?
 - Cordova plugins was useful
 - Coding angular , ionic is much easier to understand compared to java
- What do you enjoy the most?
 - Majority of the features proposed is working especially my camera function.
